The financial year-end of the Fund is December 31 and the first financial period for the Fund shall end on December 31, 2019.

INVESTMENT OBJECTIVES & POLICIES

Investment Objectives

The Fund seeks to achieve total return through capital appreciation and income by investing in equities, money market instruments, Government registered stock, fixed income securities of private and public companies available in the Commonwealth of The Bahamas.

Investment Strategy

To meet its objective, the Fund will invest its assets in equity securities with prospects for above average market returns and in debt securities to provide balance in the portfolio.

The fund will invest in industries in the Commonwealth of The Bahamas which are subject to laws and regulations governing and controlling the operating structure, regulatory compliance, taxation and financial reporting of companies in such industries. These industries include, but are not limited to, Gaming; Hotel and Hospitality; and Real Property and Development.

The Fund's investments will center greatly on fundamental security analysis, supported by macro-economic analysis and the outlook for key sectors and industries in the Bahamian economy.

When assessing a potential equity investment, the Investment Manager examines factors including, but not limited to, the issuer's core business; growth opportunities and the quality of the management team.

For fixed income securities, the Investment Manager examines the issuer's ability to service its interest and principal payments in a timely manner as well as the structure, duration, yield and covenants of the obligation.

The Fund's assets will also be invested in government and corporate debt obligations such as registered stock and treasury Bills, which provide safety of principal and relative liquidity. Additionally, these securities will allow the Fund to realize a stable income flow, secured by the credit backing of The Bahamas Government.

Eligible Investments

The Fund will invest in private equity shares of Playtech Systems Limited, t/a ("Island Luck"), publicly traded equity shares listed on BISX, money market instruments, and the Bahamas Government registered stock/bonds, Bahamian corporate bonds and the bonds of Special Purpose Vehicles with an investment in Commercial Real Estate.

Playtech Systems Limited is a related party to Investar. The initial investment in Playtech Systems Limited will not equal or exceed 5% of the issued shares of Playtech Systems Limited. If it is the desire to invest 5%, or more, appropriate approvals will be sort from The Gaming Board for the Bahamas. The Fund will not invest in any other company in the Gaming Industry.

Related Party Transactions

The Investment Manager may determine from time to time that investment opportunities are appropriate where the Operators and Principals of the Fund are also invested.

Investment Restrictions

The Fund will not:

Scope: Invest in any companies that are not registered in the Commonwealth of The Bahamas.

Diversification: Invest more than 35% of the Fund's assets in a single issuer. This limit does not apply to Government Securities. Therefore, the maximum investment in Playtech Systems Ltd. will be limited to 35% of the assets of the Fund.

Invest more than 55% in securities of issuers in a single industry other than those securities issued or guaranteed by the Government of The Bahamas. If these limits are exceeded due to the change in the asset value of the Fund or because of redemption, the Investment Manager shall not be obligated to effect changes in assets already owned.

Asset Allocation: Hold cash portion of the Fund less than 5% of the portfolio. Fixed Income Securities will be limited to a maximum of 50% and equity securities will be limited to a maximum of 50% of the portfolio.

Liquidity: Allow marketable securities allocation to fall below 20% of the portfolio of the Fund.

Short Sale: Make short sales of securities or maintain a short position unless it is for duration adjustment purposes.

Derivatives: Undertake any transaction in any complex financial instruments such as derivative instruments.

Cash Holdings: When the Fund is not holding securities it may only hold cash deposits denominated in Bahamian dollars. The term of these deposits will range from overnight to a maximum of one year. The deposits will only be held with institution with a strong, short-term credit rating. There is no maximum to the percentage of cash holding in the Fund.

Lending and borrowing: The Fund shall not give, whether directly or indirectly, and whether by means of a loan, guarantee, the provision of security or otherwise, any financial assistance for the purpose of subscription made or to be made by any person of or for any Shares in the Fund nor shall the Fund make a loan for any purpose whatsoever on the security of its Shares.

The Directors may from time to time, in their absolute discretion, raise or borrow or secure the repayment of any sum or sums of money not exceeding 20% of the Fund's total assets in such manner and upon such terms and conditions in all respects as they think fit.

RISK FACTORS

Potential investors in the Fund should carefully consider the following:

General

A subscription for shares should be considered only by investors financially able to maintain their investment for the long term.

General Economic and Market Conditions: The success of any investment activity is affected by general economic conditions, which may affect the level and volatility of interest rates and the extent and timing of investor participation in the future market. Unexpected volatility or illiquidity in the markets in which the Fund (directly or indirectly) holds positions could impair the Fund's ability to carry out its business or cause it to incur losses.

Fluctuation of Share Price: The Net Asset Value will be subject to market fluctuations attributable to the values of the securities it holds, as well as fluctuations in the markets affecting the services provided by the entities whose securities are purchased by the Fund. Consequently, the value of a Shareholder's investment in the Fund may decrease as well as increase.

Investment Objective: While the Fund and the Investment Manager shall seek to attain the Fund's Investment Objective, neither the Investment Manager nor the Fund, or any other party, can guarantee the extent to which the Investment Objective can or will be achieved.

Equity Price/Valuation: The risk that the price of the securities held by a Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the companies issuing the securities participate and the issuer company's particular circumstances. Investors may lose money on their investment due to unpredictable drops in a company share value or periods of below-average performance in a given stock or in the stock market as a whole. Growth stocks are generally more sensitive to market movements than other types of shares primarily because their prices are based heavily on future expectations. Value stocks present the risk that they may fall out of favor with investors and underperform growth stock during any given period.

Voting Rights: The Class A Shares will have no voting rights and hence Shareholders cannot elect the Directors of the Fund or take other corporate action to further their interests.

Legislative & Policy Risks: The performance of the Fund can be impacted by legislative and policy changes. Investments made by this Fund in Bahamian businesses may increase or decrease in value as a result of legislative and policy changes made in the government's annual budget or changes by regulatory boards or by changes in various Government policies. During the Government annual budget presentation, amendments are typically made to custom duties, value added tax categories/rates and level of concessions which can go up or can go down, thereby impacting, positively or negatively, investments in businesses and the economy.

Changes particularly in the gaming industry, could have an impact on the performance of the Fund as the gaming industry is vulnerable to increases in taxes and levies.

The Fund will be a minority shareholder of Playtech Systems Ltd. (t/a Island Luck) (Playtech) which is regulated by The Gaming Board For The Bahamas. Thus, any changes in the operations of Playtech and the gaming industry may affect the rights of minority shareholders of Playtech. Purchase of shares in a gaming company 5% or more requires Gaming Board approval subject to provisions in the Gaming Act.

Public Policy Exposure: The investment strategies focused on investments and industries in the Commonwealth of The Bahamas, which are subject to periodic monetary and fiscal policy changes. Such changes can impact the investment objective, fluctuation of share price and performance of this Fund.

Redemption Risks: If there are substantial redemptions within a limited period of time, it may be difficult for the Fund to provide sufficient funds to meet such redemptions without liquidating positions prematurely or on unfavorable terms at a substantial loss to the Fund. The Fund reserves the right to honor redemption requests in such a manner as to minimize the negative effects of large numbers of redemption requests, including establishing a time-table for their execution.

Redemption Timeframe: When Shareholders elect to redeem their Shares, their decision may be based on the price of the Fund on the most recent Valuation Day. There can be no assurance that adverse market conditions or other factors arising during the period between the previous Valuation Day and the Redemption Day will not result in material changes in the Net Asset Value of the Fund on the date the redemptions are affected

In such cases, redemption requests will be accepted on a first-come, first-served basis. In addition, in times of extreme market volatility, the Directors may, at their discretion and upon advice received from the Investment Manager, suspend redemptions of Shares for such periods of time as it deems appropriate.

Conflicts of Interest. There are potential conflicts of interest between the interests of the Shareholders and the business interests and activities of Investar. Among other reasons, these potential conflicts may result from Investar's investment activities on behalf of its other clients.

Notwithstanding the foregoing, the Investment Manager shall not enter into any such transaction on behalf of the Fund that is not in the best interests of the Fund at least as favorable to the Fund as could have been obtained in a transaction between the Fund and an unrelated third party freely negotiating a purchase or sale.

Investar and Playtech Systems Limited have a common shareholder.

The Fund will share a common Director with both Investar and Playtech Systems Limited.

By executing a Subscription Agreement, each Shareholder acknowledges that such conflicts of interest exist and agrees that both Investar and the Fund will have no liability to the Shareholder as a result of these conflicts. The Shareholders agree not to assert any claim against Investar or the Fund arising in connection with any conflict of interest experienced by Investar, whether or not specifically set forth above.

Activities of the Investment Manager: The Investment Manager engages in other activities in connection with its investment management business. The Investment Manager may engage in other activities whether or not they compete with the business of the Fund, although the Investment Manager intends to devote such time and effort to the business of the Fund as it considers necessary or appropriate.

Trading: The Investment Manager intends to effectuate the strategies described above and will generally follow these strategies for as long as such strategies are in accordance with the Fund's objectives. However, the Investment Manager reserves the right to modify the Fund's investment approaches or to formulate new approaches to carry out the objectives of the Fund. There can be no assurances that the Fund will achieve its investment objectives.

Lack of Operating History: The Fund is a recently formed entity and has no operating history upon which prospective investors can evaluate its likely performance.

Fees and Expenses: Whether or not the Fund is profitable, experience appreciation in value or not, the Fund, is required to pay fees and expenses as detailed in this Offering Memorandum. These expenses and fees will affect the performance of the Shares.

Early Termination: In the event of the early termination of the Fund, such an early termination would have the effect of accelerating the unamortized portion of any fees borne by the Fund thereby decreasing amounts otherwise available for distribution. Certain financial instruments held by the Fund may be highly illiquid and might have little or no marketable value. It is possible that at the time of such sale or distribution, certain securities held by the Fund would be worth less than the initial cost of such securities, or that, due to their illiquidity, they be liquidated under conditions less favorable than the ones that prevailed at the time of their valuation, and consequently resulting in a loss to investors.

THE FOREGOING LIST OF RISK FACTORS DOES NOT PURPORT TO BE A COMPLETE LIST OR EXPLANATION OF THE RISKS INVOLVED IN AN INVESTMENT IN THE FUND. PROSPECTIVE INVESTORS SHOULD READ THIS MEMORANDUM AND CONSULT WITH THEIR OWN FINANCIAL ADVISORS; ACCOUNTANT; STOCK BROKER OR ATTORNEY-AT-LAW BEFORE DECIDING TO INVEST.

MANAGEMENT

BOARD OF DIRECTORS

The Directors will normally meet quarterly and at least once a year to review the investment and administrative affairs of the Fund.

The Directors may amend the constitutive documents of the Fund without consulting the Management Shareholders and the Shareholders if the Directors certify in writing that, in their opinion, the proposed alteration:

- a) is necessary to make possible compliance with fiscal, or statutory requirement or requirements of any overseas regulatory authority;
- b) does not materially prejudice Shareholder's interests;
- c) does not to any material extent release the Custodian, Administrator, Investment Manager or any other person or persons from any liability to the Shareholders; or
- d) does not materially increase the costs and charges payable from the Fund property.

The Directors may adopt changes to the Fund's investment policies, investment restrictions, operating and valuation policies as long as the Directors provide Shareholders prior written notice. ELIGIBLE INVESTORS

Unless otherwise approved by The Gaming Board For the Bahamas, only the following persons (“Eligible Investors”) may invest in the Fund:

If an individual

The applicant is 18 years of age or older, must be a citizen of The Bahamas who is ordinarily resident in The Bahamas and the applicant is not applying for Shares as nominee for any other person, corporation, trust or fund that would not be an Eligible Investor.

If a corporation

The applicant is incorporated or registered under the laws of The Bahamas.

The applicant is **wholly (100%) owned by individuals who are citizens of The Bahamas** and who is ordinarily resident in The Bahamas and the applicant is not applying for Shares as nominee for any other person, corporation, trust or fund that would not be an Eligible Investor and all necessary corporate action has been taken to authorize the purchase of the shares.

If a trust or pension fund

- Beneficiaries of the trust or fund are citizens of The Bahamas who are ordinarily resident in the Bahamas, and wholly (100%) Bahamian resident companies owned by them; and
- trustees of the trust or managers of the fund represent that they have the necessary power and all requisite action has been taken to enable them to effect the purchase of the Shares; and
- the applicant is not applying for the Shares as nominee for any other person, corporation, trust or fund that would not be an Eligible Investor.

The Directors of the Fund, as a condition to the acknowledgement and acceptance of any subscription, purchase or transfer of Shares, may require satisfactory evidence of compliance with the above as well as any restrictions that may be imposed in the future or that may be required by any current or future law, rule, regulation or interpretation by any applicable jurisdiction.

The Directors reserve the exclusive right to determine conclusively whether any person or entity is an Eligible Investor and any such determination may be made after an investment has been made.

If at any time it comes to the attention of the Directors that Shares are beneficially owned by a person who is not an Eligible Investor, either alone or in conjunction with any other person, the Fund may compulsorily redeem the Shares at the last calculated Net Asset Value per Share. Once notice is given of such compulsory redemption, as outlined below under "Redemption of Shares", the Shareholder concerned shall cease to be the owner beneficially or otherwise, of such Shares.

SUBSCRIPTIONS

Shares will be offered at a fixed price of **\$5.00** per Share during the initial Subscription period.

Following the close of the initial Subscription Period, Shares may be subscribed for on a monthly basis on each Dealing Day. The offering price of the Shares on any Dealing Day shall be the Net Asset Value per share on the Valuation day.

The minimum Initial Subscription that will be accepted from a new investor will be \$500. Thereafter, subsequent additional subscriptions from existing Shareholders of at least \$500 may be made on any Dealing Day. Existing Shareholders must maintain a minimum balance on their account of \$500. The Directors reserve the right to alter the above-mentioned subscription and minimum balance requirements at their absolute discretion.

Applications for subscriptions shall be made on the form attached to this Offering Memorandum or such other form as the Directors may, in their absolute discretion, from time to time direct.

Subscription documents and cleared subscription proceeds should be received by the last business day each month by 5:00 pm (Eastern Standard Time).

The Directors reserve the right to reject subscriptions in their absolute discretion, without assigning any reason therefor.

REDEMPTION OF SHARES

Compulsory Redemption

The Directors of the Fund have the right to require the compulsory redemption of all Shares held by a Shareholder who is not an Eligible Investor, or for any other reason at their sole discretion. Compulsory redemptions shall be made at the Net Asset Value per share at the Redemption Day immediately preceding the issuance of a notice of compulsory redemption to the respective Shareholders.

Furthermore, compulsory redemptions may also be made where the Shareholder is in breach of any of the representations, warranties, agreements or certifications contained in the Subscription Agreement or otherwise. Such redemptions shall be made at the Net Asset Value per share at the Redemption Day immediately preceding the date upon which the Shareholder becomes in breach of any of the representations, warranties, agreements or certifications contained in the Subscription Agreement.

Shareholder Redemption

Subject to 30 days prior written notice any Shareholder may redeem Shares on any Redemption Day. The Directors may permit redemptions at such other times as determined in their sole discretion. The total amount of the redemption proceeds will be available as soon as reasonably practicable but within ten (10) business days after the relevant Redemption Day.

The redemption price per Share will be equal to the Net Asset Value per Share as of the Redemption Day on which such Shares are redeemed.

To the extent that a Shareholder authorizes the Fund to redeem Shares on the basis of instructions provided by facsimile, the Fund may retain and not distribute any redemption proceeds until it has received an original signed confirmation of the redemption instructions.

Payment of the redemption proceeds will be made only to Registered Shareholders.

Partial redemptions shall be permitted so long as the remaining Net Asset Value of the Shareholder's holdings in the Fund after such redemption is equal to the Minimum Initial Investment for the Fund. If, as a result of a requested partial redemption, a Shareholder's investment in the Fund would be less than an amount equal to the Minimum Initial Investment for the Fund, required for the respective Share Class, as stated in this Memorandum, the Fund may require the Shareholder to redeem his entire shareholding in the Fund, unless stated otherwise.

Except in the case of a suspension of calculation of the Net Asset Value, all requests for the redemption of Shares are irrevocable.

In the event of unusual circumstances and the Fund receives redemption requests within any 30 consecutive days, representing more than 33% of Shareholders or more than 40% of the Fund's assets, the Directors of the Fund reserve the right to limit the redemptions to 20% of the Shares "Redemption Gating".

In the event that a Redemption Gating occurs, the Directors, Management Shareholder and Investment Manager shall hold a special meeting to determine whether redemptions will be suspended or the Fund will be liquidated, or the best manner in which to allow redemptions to proceed. The special meeting to determine the future course of action shall be determined by an absolute majority of the Directors and Management Shareholder, with the Management Shareholder holding one vote. For clarity, should any redemption request on any Redemption Date be sufficiently large to create liquidity challenges in the Fund, the directors, in their sole discretion, reserve the right to limit the amount of redemption payments and to stagger these payments over an agreed-upon period of time. The Shareholders will be notified of a Redemption Gating as soon as reasonably possible.

The Directors may suspend the determination of Net Asset Value and of redemptions in the circumstances described under "Suspension of Net Asset Valuation" below.

The Fund may withhold payment to any person whose Shares have been tendered for redemption until after such suspension has been lifted. If a redemption request is not withdrawn by a Shareholder following notification of a suspension, the redemption will be completed on the basis of the Net Asset Value per Share on the Redemption Day immediately following the end of the suspension.

The Fund reserves the right to withhold payment with respect to any redemption proceeds until it has satisfied itself with respect to (i) the due authorization and execution of the redemption request and (ii) the identity of the recipient of any redemption proceeds.

REDEMPTION FEES

For redemption of Shares a fee of Ten Dollars (\$10) per redemption will be deducted from the redemption amount, unless waived at the absolute discretion of the Directors.

SUSPENSION OF NET ASSET VALUATION

The Directors may suspend the calculation of the Net Asset Value of the Fund in any of the following events:

- 1) during which any principal market on which a material part of the investments of the Fund relating to a particular class of trades a majority of its securities or other investments is closed other than for ordinary holidays or during which dealings thereon are restricted or suspended;
- 2) when circumstances exist, including catastrophic events, that render purchases or disposal of investments (relating to any class of Shares by the Fund), in the opinion of the Directors, not reasonably practicable or seriously prejudicial to the Fund or to the Shareholders;
- 3) during any breakdown in the means of communication normally employed in determining the value of the Fund's securities or other investments or when, for any other reason the value of the Fund's securities or other investments cannot reasonably be promptly and accurately ascertained;
- 4) when the aggregate amount of redemption requests in any one month for a particular class of Shares, exceeds twenty (20%) of the total assets of the Fund for the particular class of Shares; or
- 5) when the Directors have decided to terminate the Fund.

NET ASSET VALUATION

The Fund will determine the Net Asset Value for the Fund on each Valuation Day.

The determination of the Net Asset Value for the Fund will be calculated on the basis of the value of the portfolio of securities and other assets of the Fund, less liabilities and accruals for the Fund fees and expenses calculated in accordance with International Financial Reporting Standards.

For the purpose of determining the Net Asset Value of the Fund, the Administrator will value assets at fair market value. The valuation guidelines as determined by the Directors will provide in part that:

- Marketable securities listed on one or more securities exchanges will be valued at the average closing price on the Valuation Day.
- Securities traded in other markets other than on a regulated securities exchange will be valued at the average closing bid price on the Valuation Day as quoted by established sources.

- All other securities will be valued at cost or at a valuation based on contemporaneous third party transactions in the private market or at fair market value, taking into consideration the cost of the securities, restrictions on the sale of the securities, the quoted price of securities of comparable publicly traded companies, market conditions, the underlying collateral, financial data and such other factors as may be considered relevant.
- If a particular market value is not easily ascertainable or if the Directors consider that some other method of valuation better reflects the fair market value of a particular investment, the Directors may substitute what is in their opinion fair market value in the content of a particular valuation.

The Net Asset Value per Share of the Fund is equivalent to the Net Asset Value of the Fund on the Valuation Day divided by the number of Shares of the Fund issued and outstanding as at that date.

REGISTRATION AND TRANSFER OF SHARES

Shares of the Fund will be issued in registered form. Share certificates representing Shares will not be issued. The Fund will maintain a current list of the registered names and addresses of the Fund's Shareholders at the registered office of the Fund.

Transfer of Shares can only take effect either by a) serving upon the Fund in the manner prescribed by law, an instrument of transfer signed by or on behalf of the transferor and the transferee or b) by written acknowledgment by the Fund of the transfer, which acknowledgment shall be signed by a Director or another person designated thereto by the Directors, in accordance with the Memorandum and Articles of Association of the Fund.

The Fund has designated the Administrator under the terms of the Administration Agreement to perform the above-mentioned duties in connection with the registration and transfer of Shares.

Any transferee will have to furnish the same information which would be required in connection with a direct subscription in order for a transfer application to be considered by the Administrator. Violation of applicable ownership and transfer restrictions may at the discretion of the Directors of the Fund result in compulsory redemption.

DIVIDEND POLICY

The Directors may declare and pay dividends out of the income and capital gains of the Fund to the Shareholders. The Directors do not anticipate that any dividends will be paid.

ANTI-MONEY LAUNDERING

To ensure compliance with the Financial Transaction Reporting Act, 2018 and the Proceeds of Crime Act, 2018 of The Bahamas (and all amendments and regulations thereof) and other generally accepted principles relating to anti-money-laundering, the Fund may require a detailed verification of a prospective shareholder's identity. Depending on the circumstances of each application, a detailed source of funds may not be required if:

- a) the applicant makes the payment from an account held in the applicant's name at a recognized financial institution;

b) the application is made through a recognized intermediary.

An individual will be required to produce a copy of a passport, voter's card, NIB Smartcard, driver's license or identification card certified by a notary public. Corporate applicants or other legal entities may be required to produce a certified copy of their certificate of incorporation (and any change of name), memorandum and articles of association (or other document evidencing the existence of the legal entity), the register of directors or an excerpt from the register held at the Registered Office and the signatory card verifying the authority of officers to sign on behalf of the corporate entity.

Trusts, or similar organizational units without specific beneficial owners, which subscribe to the Fund must produce organizational documents that verify their existence and the authority of one or more signatories to sign subscriptions on their behalf.

The Fund reserves the right to request such further information as is necessary to verify the identity of an applicant. In the event of delay or failure by the applicant to produce any information required for verification purposes, the Fund may refuse to accept the application and the subscription moneys relating thereto.

TAXATION

The Fund, under current law, is not subject to tax in The Bahamas.

Services provided to the Fund and transactions entered into by the Fund may be subject to Stamp tax or Value Added Tax in the Bahamas.
