## I wanted a better rate of return ” for investments

I invested because it's time I started planning for my future, I plan to retire by the time I'm 50. To do that I need to save, budget and invest my money into a fund with a good\* rate of return.

## I wanted to grow my wealth ”

I invested because I needed to find ways to grow my business. Traditional savings were not enough. I needed a fund that offered a good and steady rate of return so that I could plan for my company's future and growth.
